Challenging Choices

The program that proves that
there's something for teens to do.

Challenging Choices is a recreational program designed for youth 12—18 years of age. The program is offered under the sponsorship of Bucksport's Recreation Department and the Bucksport Bay Healthy Communities Coalition.

It is a youth driven program with adult supervision. Ideas for activities come from youth. Current activities include Lego Robotics, Hip-Hop Dance, yoga, and art classes.

An Advisory Board, which will consist of youth and adults, is being formed. The Board will meet monthly to plan program activities and guide the program .

Get Involved!

Most Challenging Choices programs take place at the Jewett Community Center after school.

A late bus transports Bucksport school students home after program activities.
